Dear Phil

This past November Jim Lesar appeared on Fox Morning News with Gerald Posner.

I have a book on Posner and his book being published.

The title is Case Opened.

If possible I'll appreciate a cassette.

I use Posner and his book also as symbols in the book.

And, to me, they do symbolize much of what went wrong and stays that way.

If Michelle is still there, please remember me to her.

Thanks and best wishes,

Harold
